Velvety Green Lawns Complete the Picture!

A smooth, rich-growing, soft green lawn provides the background for your garden picture—a background not as necessary and not as important as a rug on your floor, or color on your walls. Some grasses grow more quickly than others, some are fine, others are noted for their strength. It is the proper combination of these qualities which makes a mixture serve you best, and that combination can come only from an intimate knowledge of local conditions and soils, such as we have. We guarantee purity and freedom from weed seeds. Choose from our mixtures the best one to fit your needs.
